Sir:

Response to Office Action

The Office Action dated May 14, 1996 has been carefully reviewed. In response, an amendment and remarks which are believed to obviate the rejection and place the application in condition for allowance are provided herein. Reconsideration and allowance of all claims, as amended, is respectfully requested.

Amendment

Please cancel claims 3, 12, 13, 63, 65, 68, and 70-79 without prejudice.

Please amend the claims as follows:

1. (twice amended) A device or apparatus for manipulating matter at an intended manipulation temperature in a confined or inaccessible space, comprising:

(i) manipulator means at least partially constructed of at least one bent or twisted elongated shape memory alloy member having pseudoelasticity at the intended manipulation temperature, and

(ii) [an impermeable] a barrier material spanning said at least one alloy member, the barrier material being impermeable to the matter manipulated;

(iii) a hollow housing or cannula capable of initially holding at least the at least one alloy member in a relatively straightened state, and
